

Turn to Inside Section for Complete Fruit Listing and Prices

UNDERWOOD PLUM

Delicious, yellow fleshed, juicy — for eating and canning. Hardy and productive. Needs pollinizer.

NORTH STAR CHERRY

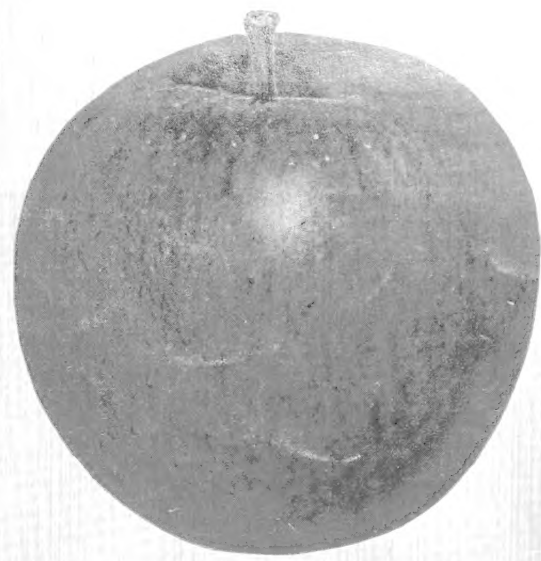

We are slow to push new varieties because we feel they should be well tested before suggesting you buy them but here's one we can. North Star Cherry looks very good to us, actually its the first good pie cherry for this region.

4 ft. Tree \$2.95 — Supply Limited

LATHAM RASPBERRY

Still tops for all around performance. Red Raspberries are easy to grow and economical. Use blacks and purples only where you have lots of space and at least 100 ft. from reds.

HARALSON APPLE

CRAB, HOPA

Beautiful deep red blossoms distinguish the Hopa Crab from other Crabs. Many consider it the most beautiful of the flowering crabs. The foliage is dark green with a red cast. The small red fruits remain on the tree until autumn. The tree is half-round in shape, growing to a spread of 15 feet and a height of 20 feet.

4-5 ft. branched trees \$2.65

5-6 ft. branched trees \$3.15

We will also offer this beautiful Flowering Crab potted and growing for \$3.50 each.

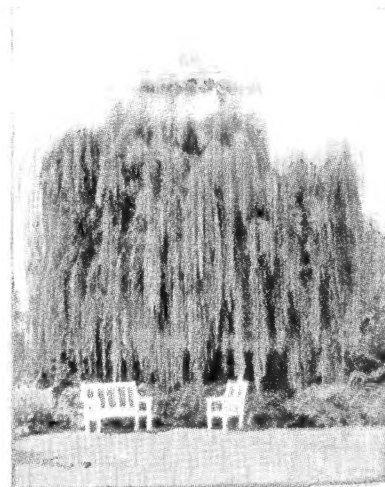

See other side for more flowering crabs.

NIOBE WEeping WILLOW

Long, drooping branches of golden yellow. A good background tree where there is lots of space. Especially nice near water. Graceful, fast growing.

4 to 5 ft. branched trees already started \$1.35 ea.

HYDRANGEA P.G. (Pink)

This attractive shrub does well in the sun, in partial shade or even on the north side of the house. Grows 4 to 6 feet tall, blooming from mid-summer to frost, with giant cone-shaped flowers, white at first, then turn fascinating pink and bronze. Fine for cutting lasting for weeks.

Strong, well
Branched Plants

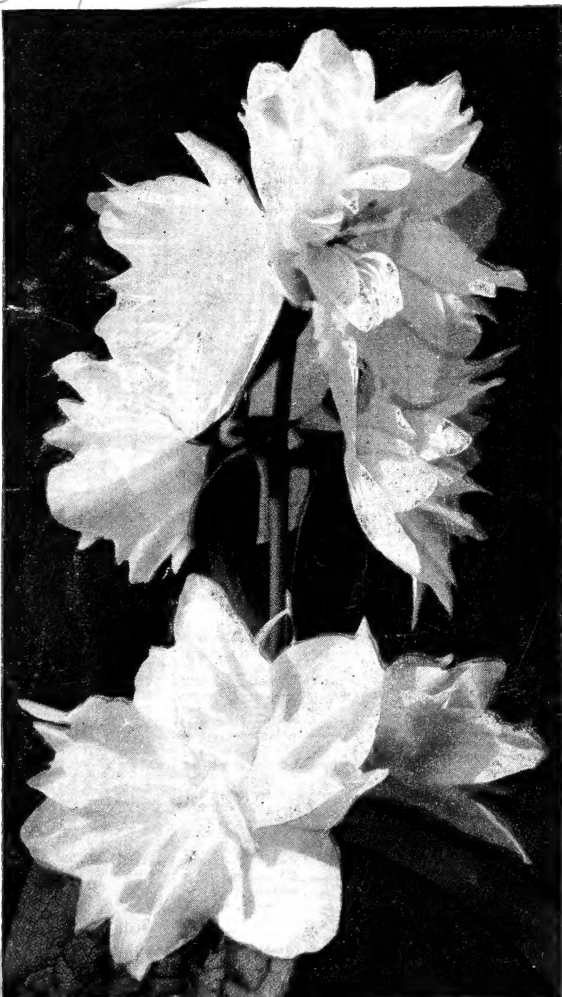

18-24 in. \$1.25 ea.
2-3 ft. \$1.75 ea.

Here is a personal invitation from the Sargents (all seven) of the Red Wing Nursery for you to come and visit our sales yards and growing fields. Yes, we invite your mail orders, but better still come and pick out your own plants from the many on display — and get acquainted besides.

MAIL ORDER TERMS OF SALE

Payment in full should accompany all orders. Money orders, checks or bank drafts are the most convenient means of making payment. If you send cash, we suggest enclosing it in heavy paper and registering the letter. All stock is priced F.O.B. Red Wing or at the Nursery, unless otherwise stated.

PARCEL POST SHIPMENT

Many of the smaller items can be shipped by Parcel Post at less than Express. Include 20% for packing and postage if parcel post is desired. Trees over 4 feet in height cannot be sent Parcel Post.

ROSES

Our POTTED-GROWING roses have become increasingly popular. Our customers like to buy them this way for they run no risk of loss at all. The enriched soil in which the roses are growing remains intact when you set the roses into your garden and they continue to grow undisturbed. This year we've added 20 varieties to our expanding list of about 50 choice varieties. Included are the two new All-America winners for 1954, Mojave, a salmon-apricot-orange blend, and Lilibel, a lovely pink Floribunda.

Prices are for select No. 1 grade plants, POTTED-GROWING. Bare root prices are 25¢ less, each.

MOERHEIM BLUE SPRUCE

3 foot Trees — Balled and Burlapped
Valued at \$28.00 each

MOERHEIM is the finest grafted selection of Colorado Blue Spruce in America. Register at our nursery any time. Drawing will take place Memorial Day. (Winners need not be present.) One tree is for a Wisconsin customer, the other for a Minnesota customer.

Decoration Day Peony

This bright, cherry red peony will blossom for you every year on Memorial Day. Completely hardy.

POTTED - GROWING
\$1.45 EACH
3 or More \$1.25 Each

A Fine Hardy Accent Shrub

Silver Leaf Red Twig Dogwood

(Cornus Elegantisima)
18-24 inch Plants \$1.65 Each

Perhaps the most beautiful of all foliage shrubs. Grows 5-6'. This is the one everyone admires and wants. While they last.

(FOR PRICES SEE OTHER SIDE)

SPRUCE

BLACK HILLS SPRUCE — A robust appearance is characteristic of this handsome Spruce. It is symmetrical, compact and bushy in habit. It is very hardy and is highly resistant to drought. It will do well on a wide variety of soils. A bluish tinge may be seen in the deep green of the foliage. It may reach a height of 40 to 50 feet, averaging about 1 foot a year in new growth.

COLORADO BLUE SPRUCE — This is probably the most popular ornamental Spruce. It has a symmetrical, conical outline. It is hardy and drought resistant. It grows well in a wide variety of conditions from dry, sandy to rich, moist situations. The color ranges from green to powdery blue. Not all of the trees have the striking blue sheen. The greens and the blues are separated in the price list. The trees may reach a height of 40 feet and a spread of 20 to 25 feet. It is very hardy.

YEW (Taxus)

JAPANESE YEW — These are the highest priced evergreens we sell, but we use them because they are so wonderfully fine for that shady spot. In fact in this region they must have winter shade to prevent browning of the needles. Both spreading and upright types are available. For beauty of foliage all year around and adaptability to the shady place, they are just unrivaled.

Sargent's Ornamental Shrubs

Almond, Double Flowering. Double rose-like pink flowers cover the branches in early May. This shrub is best in front of taller shrubs. It is not recommended for climates similar to northern Minnesota. Height 4 feet.

ARROWWOOD, 5-8 feet. In our landscape planning we use this plant frequently. It is entirely hardy, is of upright habit, has attractive rugose foliage and clusters of purple berries.

Balsberry, Red Leaf. Deep red leaves that last throughout the summer. The color is best when the shrub is grown in full sunlight. The bright red berries are colorful through fall and winter. It is also used as a hedge. Height 2 to 3 feet.

Barberry, Thunberg. This low spreading shrub appears late in May and June. It seldom grows over 4 feet tall; useful in borders, specimen and foundation plantings.

Meckoranga, Lemnec. This is a finely branched, small leaved variety, with attractive, fragrant white flowers in June. This is another of the half-dozen best shrubs of this size.

Purple Leaf Plum (Prunus cistena). This shrub is a rather upright grower, thereby not requiring lots of room, and adds a splash of color for the border planting.

Spiraea, Thunberg's. This is the earliest Spiraea to bloom, the shrub becoming a mass of snowy garlands before the leaves appear. 3 to 4 feet.

Spiraea, Fritid Wreath. The arching branches well loaded with clusters of white blooms have made this a favorite for a long time. 4 to 6 feet.

Tamarix. Feathery, bluish gray foliage gives this shrub an unusual airy charm. It bears long panicles of bright pink flowers in July and August. Height 6 to 8 feet.

Wayfaring Bush (Viburnum lantana). The branches and foliage of this shrub are rather coarse leaved. It produces brilliant red berries in July and August. There is an individuality about this shrub which we like. 4 to 6 feet.

Willow, Niobe Weeping					

Ash, Green, (White): Here is one of the most dependable trees. It is fast growing, long lived and drought resistant. It will grow well in a wide variety of soil conditions. Height 60 to 70 feet.

Ash, Mountain: Here is one of the most dependable trees. It is fast growing, long lived and drought resistant. It will grow well in a wide variety of soil conditions. Height 60 to 70 feet.

Basswood: Handsome shade tree. It is hardy and grows rapidly. Bears clusters of small white and cream-colored flowers. Height 75 feet, spread 50 to 60 feet.

Birch, Cut Leaf Weeping: The drooping branches and the finely cut leaves are attractive. The white bark provides color throughout the year.

Crab, Almey, 15-20 ft. Large glistening red flowers in spring. Crab, Bechtel's Double Flowering. Beautiful fragrant clusters pink flowers. Crab flower is like a pink Camellia. The ideal tree for small yards.

Crab, Hops. (Description on other side)

Elm, American. Everyone knows the American Elm. It is a hardy, long lived tree. Height 80 to 100 feet.

Elm, Lake City. This is a grafted form of the American Elm. It is distinguished by symmetrical form and rich foliage.

Hackberry. Hackberry shows a remarkable tolerance to a wide variety of soil and moisture conditions. It grows rapidly but is tough and strongly branched.

Locust, Moraine (Patented). Its graceful, open crown of fine foliage and somewhat pendulous branches make it a splendid ornamental. Grass will do well beneath it as its shade is not dense.

Maple, Schwedler. The leaves are an attractive red during the early part of the summer. It is best used as a specimen and should have full sunlight for greatest coloration. Height 40 to 50 feet, spread 30 feet.

Maple, Sugar. This Maple has an oval shape with symmetrical round crown. It will grow under various conditions. In fall the leaves turn from a bright yellow to showy red and yellow. Height 30 feet, spread 40 to 50 feet. Probably our best shade tree.

Olive, Russian. The serviceability and beauty of this tree make it most acceptable for snow catch purposes. It thrives under the most adverse conditions of soil and climate. Height 25 feet.

Poplar, Lombardy. (Description on other side)

Poplar, Boileau. (Description on other side)

Willow, Niobe Weeping. (Description on other side)

How To Plant Evergreens.

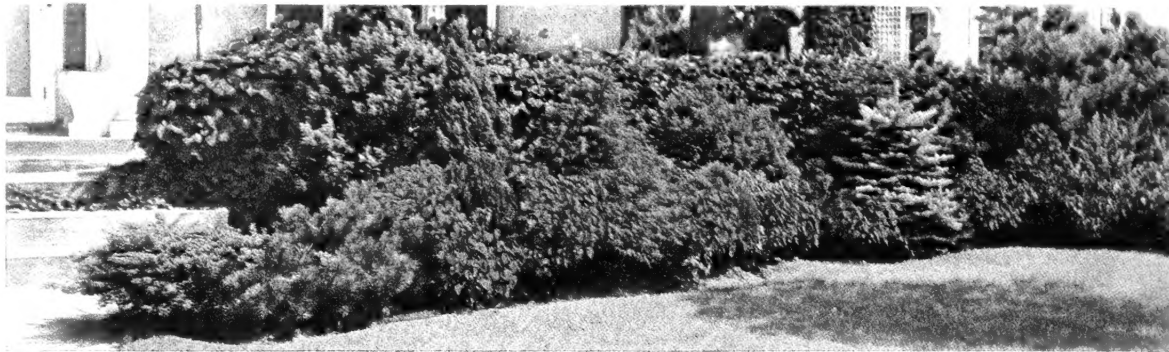

1. Dig a hole a foot wider and deeper than the root ball.
 2. Provide good planting soil to fill under and around ball.
 3. Set tree so top of root ball is slightly lower than ground level.
 4. Fill around ball with good planting soil and water thoroughly.
- DO NOT REMOVE BURLAP**

Through the spring planting season we try to keep a full assortment of balled and potted evergreens dug and healed in sawdust in our lath house ready to load right into your car without delay.

PYRAMIDAL ARBOR VITAE

A fine landscape plant - tall and slender. Can be easily trimmed. Prefers some winter shade. Does well on a north side.

FOR RICHNESS OF COLOR AND TEXTURE AND FOR REAL DISTINCTION IN A PLANTING, EVERGREENS ARE ALL IMPORTANT.

PRICES OF EVERGREENS (Including Balling and Burlapping)

THE TOWERING POPLARS

POPLAR, LOMBARDY. Everyone is familiar with this tall stately landscape tree which can be used to accent points, quick screens, backgrounds and along driveways. It is quick growing and has very glossy leaves that shimmer in the sunlight. The branches grow close to the trunk and upright to form a tall, narrow tree. Height 60 feet, spread 6 to 8 feet.

Branched trees 6-8 ft. \$1.40
Branched trees 8 to 10 ft. \$2.15
3 to 4 ft. 10 for \$2.35
4 to 5 ft. 10 for \$3.15

POPLAR, BOLLEANA If you want a fast growing tree with the Lombardy habit of growth but with more color, you will be pleased with the Bolleana Poplar. In summer the leaves are glossy green above and silvery white beneath, and in autumn they become a showy yellow. The bark is an attractive green. Height 60 feet, spread 6 to 8 feet.

Branched Trees 4-5 ft. \$1.65

VIRGINAL MOCK ORANGE

A fine old variety, semi-double, fragrant, grows 6-8 ft, narrow upright.

Branchy Plants 18-24" \$1.35 ea.
3 or more \$1.15 ea.

HILLS OF SNOW HYRANGAEA

Grows 3 to 5 ft. Is especially good in shady places, tho needs ample moisture.

18-24" \$1.25 ea. — 2-3' \$1.75 ea.

ANTHONY WATERER SPIREA

A true dwarf growing to about 30 inches. Blossoms twice during the summer. Bushy plants.

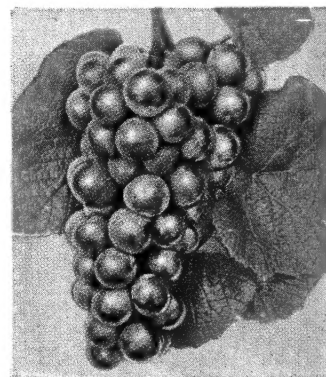

12-18" \$1.15 ea.
3 or more \$1 ea.

Minnesota's Own BLUE JAY GRAPE

A good, hardy dessert grape. Ripens earlier than Concord. Berries large. Plant with another variety for good pollination.

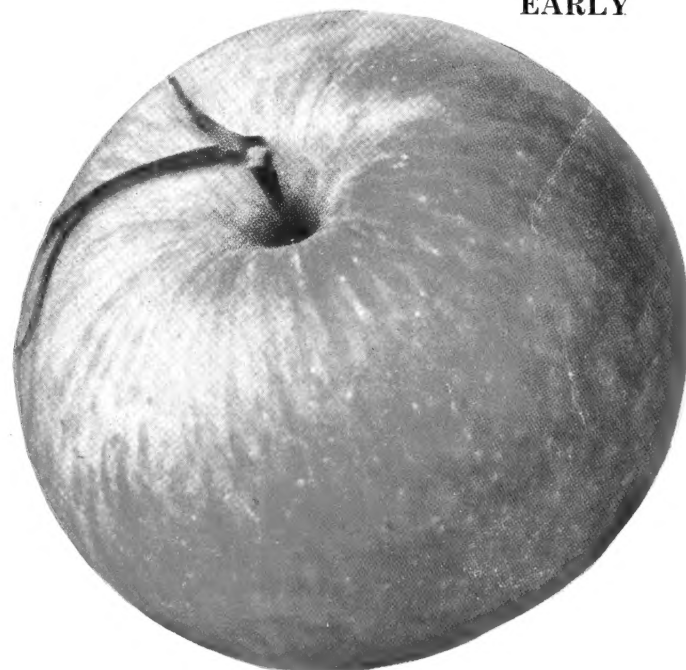

2 yr. Heavy \$85 each
3 or more \$75 each

CONCERNING SARGENT'S ROSES
WHERE GROWN — All of our Rose bushes are grown for us in the far west where, we consider, the very highest quality Rose bushes in America are produced.

VARIETIES — There are literally hundreds we choose from and we select only those which have become the most popular because of superior performance. Every single variety we offer is amongst the list of leaders.

PRICES — Don't feel that the highest priced ones are always the best. For instance we have seen no finer dark red than Crimson Glory. If you are beginning the hobby choose the less expensive ones first.

3. **CHRISTOPHER STONE**
Brilliant unfading red, fine fragrance.
4. **SOEUR THERESE**
Rich apricot yellow—very vigorous and profuse.
5. **CRIMSON GLORY**
A finer red we have not seen—profuse, vigorous, very fragrant.

Root Wrapped \$1.50 Potted-Growing \$1.75

Plant Floribunda Roses

- For Quality of Bloom.
- For Continuous Bloom.
- For Bouquets and Corsages.
- For Mass Planting.

Floribunda Roses are hardy and long lived. They need comparatively little care, and they come in a wonderful range of colors.

To him who, in the love of nature, holds communion with her visible forms, she speaks a various language; for his gayer hours she has a voice of gladness, and a smile and eloquence of beauty, and she glides into his darker musings, with a mild and healing sympathy that steals away their sharpness, ere he is aware.

From Thanatopsis — Bryant

ZABEL'S HONEYSUCKLE
One of the two or three very best shrubs growing about 8 ft.

HEAVY BRANCHED PLANTS
2-3 ft. \$1.35 ea. — 3-4 ft. \$1.65 ea.

GIANT FLOWERING CLEMATIS

RED. Ville De Lyon. A grand shade of bright red that makes a wonderful display. Rapid growing.

BLUE. President. This beautiful blue Clematis is one of the newest colors. A very good grower, free flowering.

PURPLE. Jackmani. An old favorite with large velvety flowers of breath taking beauty on trellis or porch.

WHITE. Henry. Nice against a colored house or fence.

CLEMATIS — The most beautiful of all climbing vines for this climate. Will bloom continuously six to eight weeks from July on.

FOR SUCCESS WITH EVERGREENS
1. Choose suitable varieties. (we'll help you)
2. Water heavily weekly first year and mulch.
3. Protect from dogs.
4. Dust with sulfur monthly thru summer to destroy Red Spider Mite.
